Housekeeping may seem like a relatively safe activity, but there are hazards that you must be aware of and protect yourself against.

Safe Housekeeping

Workplace Related Hazards

- Truck Traffic / Mobile Equipment Traffic
- Falling bales / debris
- Uneven work surfaces / Weather hazards
- Stairs / Ladders
- Motors, conveyor pulleys, shafts, chain drives and rollers.

How can I protect myself and others?

- Continuously scan the area for traffic and other hazards
- Bale storage areas are for authorized personnel only.
- Move carefully and watch your step.
- Maintain 3 points of contact when climbing stairs or ladders.
- If you see a missing guard, stay away from the area and IMMEDIATELY notify your supervisor!
