As schools reopen, it’s time to remind our collection crews of proper safety precautions!

### School Bus & Zone:
- You must stop for a school bus when lights are flashing and stop sign is extended.
- Know your local laws as to distance requirements when near an active school bus.
- Do not proceed until the school bus has retracted the stop sign and lights stop flashing.
- Slow down and be patient when navigating around schools and in designated bus pick-up areas.

### Pedestrian Awareness:
- Avoid becoming distracted or complacent while on route.
- Continuously scan ahead, and keep your eyes moving (Keys 1 & 3).
- Maintain overall awareness of pedestrian traffic near schools, crosswalks, and bus pick-up & drop-off locations.
- Scan your mirrors every 5-8 seconds.
